Reflections from the Journey

"I've received so many benefits from working with Kristy in the Akashic Ascension Container. I feel like our sessions were always synchronistically timed so that Kristy could help me gain greater clarity on what was happening and next steps at important times, such as when I was preparing to deliver a channeled webinar and transmission!

The voice notes I received between sessions were so Next Level - so helpful, encouraging and nourishing. Thanks to Kristy, I feel even more confidence in my own gifts, connections and abilities.

For example, Kristy guided me through a huge Light Language upgrade and clarified which Light Beings had been coming in through my Light Language.

Another example would be when I was doing gridwork in one region, and Kristy was able to see that I'd spent time as a goddess/queen of the region.

Aside from the clarity of Kristy's quantum vision and access to the Akashic Records, and her ability to help me access more of my gifts, I appreciate how fun it was working with her. We had the best time, and it felt like a soul fam reunion party.

I'd definitely recommend working with Kristy, but only if you're a missioned soul devoted to your ascension. The program is very powerful and not for everyone - there's no place to hide in this multi-dimensional space, and the program will take you for a wild ascension ride. Whheee!

So much gratitude to Kristy for all that she shared with me."
